SPRING HAS SPRUNG!

This spring looks so much better than last year! Vaccines are starting to go into arms and there is a faint light starting to appear at the end of this long tunnel!

We were working on this newsletter in March, which is also Women's History Month and we found a few fun facts:

- **The first Women's History Day was held in 1909.** It commemorated the one-year anniversary of the garment workers' strikes when 15,000 women marched through lower Manhattan.
- **The day became Women's History Week in 1978.** An education task force in Sonoma County, California, kicked off Women's History Week on March 8, International Women's Day in 1978. They wanted to draw attention to the fact that women's history wasn't really included in K-12 school curriculum's at the time.
- **In 1987, it became Women's History Month.** Women's organizations, including the National Women's History Alliance, campaigned yearly to recognize Women's History Week. In March of 1987, activists were successful and Congress declared March Women's History Month.

NATIONAL ROSIE THE RIVETER DAY

Rosie is an icon at Nationwide, just as she was for our troops and our country during World War II. She embodies the spirit of our work ethic: positive attitude, unyielding commitment, and resolved determination. She is a symbol of unification and teamwork, an expression of the soul of America and the American working person.

The iconic pose and "We Can Do It!" slogan are again being used as a sign of dedication and support of our healthcare workers, and inspiration in the global fight against COVID-19.

March 21st each year is National Rosie the Riveter Day! We salute all the real-life Rosie's who remind us that even the most overwhelming task can be achieved when we all work together!
