## Fall Is Here!

*"October had tremendous possibility. The summer's oppressive heat was a distant memory, and the golden leaves promised a world full of beautiful adventures. They made me believe in miracles."*

— Sarah Guillory

### October is Breast Cancer Awareness Month

Breast Cancer Awareness Month, was created in 1985 to promote screening and prevention of the disease, which affects one in eight women in the United States every year and 2.3 million women worldwide.

♥ October 13 is nationally recognized in the United States as Metastatic Breast Cancer Awareness Day. About 30% of early-stage breast cancers eventually metastasize (spread to parts of the body away from the breast), and the day is intended to drive awareness to the need for more research about metastatic disease.

♥ Although breast cancer is much more common in women, breast cancer affects men, too. In 2021, U.S. President Joe Biden designated October 17 to October 23 Men's Breast Cancer Awareness Week. About 2,710 American men this year are expected to be diagnosed with breast cancer, and about 530 are expected to die from the disease.
